Subject: City Council Update

The first action item for your consideration is under the YMA agenda. You are being asked to consider an amendment to the Veolia contract adjusting the annual amount to \$1,148,063.00. This is an increase of the CPI plus increased lab testing being required by ODEQ. Both of these items are part of the existing contract. I think it should be noted that at the end of the last fiscal year we received a rebate from Veolia brought about by increased efficiency related to electric consumption. The net effect after considering the rebate is minimal.

The first of two action items for your consideration is an expenditure of funds in the amount of \$34,721.00 to install a new Geary Grate at 695 Kingsgate. Essentially this wider "French drain" that runs the width of the roadway. This will improve, if not eliminate localized flooding in that area.

The second action item is also your consideration of an expenditure of funds. This expenditure is in the amount of \$38,134.00 to install a coated steel pipe, install guard rail, as well as repair the roadway on North Richland Rd. During the heavy rains in May and June, the pipe under the roadway that had been installed by Dolese Bros. many years ago failed, and the road collapsed. After several weeks of meetings it was decided that this was the best alternative to fix the problem.
